

Trust, confidence and respect are always part of the equation.

Our MCB advisors understand the financial complexities you and your business encounter every day—we strategically solve your financial matters as if they were our own. We become a most sophisticated and savvy partner who understands the finest details and the most intricate facets of the deals you need to make to be in the strongest financial position.

Gain all the advantages from the carefully nurtured place MCB holds in the private equity and venture capital industry—it's part of the reason why we've been a leading advisor for over 50 years. Because we work exclusively with middle-market investment companies including SBICs, private equity firms and venture capital firms, you will benefit from our very clear understanding of the complex, high-risk transactions involved to enhance the growth and success of your business.

The MCB Experience

Your MCB advisors truly understand the financial complexities you face every day. That's why, as an MCB client, you will have a team of savvy strategists with expertise in personalizing our comprehensive offerings in accounting, tax, audit, due diligence and consulting services. Most importantly, you will have a dedicated Principal year over year who will guide you through tax planning, financial statement services and general business advice.

At MCB, you will receive personal attention you deserve and accessibility to the most senior team members who are well-acquainted with the need to work discreetly and collaboratively on your behalf. We know you will be quite pleased with our sophisticated services, extraordinary client experience and exceptional results.

Members of the MCB Investment Company Practice are regular speakers and contributors at industry-related conferences discussing such topics as GAAP accounting for investment companies, investment valuations and investment company tax issues.

Contact us today to discuss your Private Equity and Venture Capital accounting needs.
